Mapping Sound to Print - **No**ah Text®

Reading **re**quires **in**di**vid**uals to map sound to print. Strong **read**ers do this **ef**fi**cient**ly and **ef**fort**less**ly.

Basic words are **eas**i**er** to map out, such as can, man, bat, fat. **Com**plex words **re**qu**i**re more **cog**ni**tive re**sourc**es** and good **work**ing **mem**ory – this is where **strug**gling **read**ers and th**o**se with **dys**lex**i**a n**ee**d **as**sis**tance**.

Noah Text **en**a**bles in**di**vid**uals to map sound to print by **pro**vid**ing** a r**o**ad map **high**light**ing** the m**o**st **crit**ical **fea**tures of **Eng**lish that are **read**i**ly rec**og**nized** by **sci**ence.

Noah Text is a **spe**cial**ized** print **sys**tem, not a font. **How**ever, it can b**e ap**plied to m**o**st **an**y font.

Noah Text is not a **spe**cial c**o**de with tons of **mark**ings; it is **sim**ply a **read**ing **scaf**fold **pro**vid**ing** a w**a**y for ALL **read**ers to **en**hance their **read**ing skills wh**i**le **pro**vid**ing ac**cess to the **ver**y **com**plex c**o**de w**e in**her**it**ed – **Eng**lish print!
